24.03.2021 having validity upto 31.03.2025 have been retained in this office. The license deed will be signed only after compliance of following conditions:

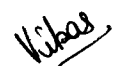

(i) The oil company/owner of the property may construct the Fuel Station alongwith its approach road without interfering in any way with the highway traffic within 12 months from the date of issue of Provisional permission for access and shall make provision for drainage, toilet, drinking water facilities signs and marking at his own cost and to the full satisfaction of the highway authorities according to the approved drawings and specification as per Ministry's circular no.RW/NH-33023/01/2017-S&R(R) dated 26.06.2020. The said approach road shall not be brought into use after its completion until highway authorities give a completion certificate after satisfying himself that it has been completed as per the sanctioned drawings and specifications. The fuel station would be energized by the oil company only after final approval has been issued by concerned highway authorities. A copy of the necessary completion certificate issued to the Oil Company may be furnished to this office which should also be confirmed by the Highway Authorities along with the completion as per Para (iii) below. In case the construction is not done in one year, the provisional permission shall be deemed to be cancelled unless extension to the validity of provisional permission for access is granted by the Regional Officer.

(ii) As per Para 11.0 (ii) of the appendix I of Ministry's guidelines dated 26.06.2020 all the retail outlets shall have free drinking water and separate ladies and gents toilet facility as per the policy of Ministry of Road Transport and Highways. However the number and size may vary based on the type of retail outlet. Therefore, Oil Company should also ensure that all the retail outlets are provided with such facilities and this would be accessible to public round the clock. To inform public about this, a display board showing location of such facilities shall be installed before entry to the retail outlet. This will be implemented prior to energizing the new retail outlet.

(iii) The Highway Authorities should examine the safety conditions at site consequent to construction of approaches. In case of any adverse conditions, the matter may be reported to this office. Compliance to the approved drawings and other conditions are to be ensured by the concerned Highway Authorities and the Oil Company as per extant Ministry's guidelines.

Yours faithfully

Encl. As above.
