Ref:- (i) Your office letter No-NHA/RO/RNC/JH/RRM/NOC-Cable/807 dated 08.09.2021

(ii) Authority Engineer letter No-Theme/TL/CSC/NH-33/PKG-IV/2021/1465 dated 17.09.2021

Sir,

Vide letter referred at Ser. No-(i) above, your good office had intimated this office to review the subject proposal, so that during construction of elevated corridor re-shifting of pipeline can be avoided or minimised and ensure the availability of utility corridor for laying of water pipe line. Subsequently, this office had forwarded the above letter as asked by you to Authority Engineer for his comments and recommendations.

Vide letter referred at Ser. No-(ii) above, Authority Engineer has furnished his comments that the proposed alignment of elevated corridor is on left side from existing road, however, above water pipe line is suitable for laying on right side.

In this regard, it is intimated that above proposal consists of laying pipeline from Km. 235.725 to Km. 243.790 out of which, 790 meter length will be laid astride the elevated corridor portion. However, proposed alignment of elevated corridor is proposed to be aligned on the left side of existing road while the pipeline will be laid on the right side. Hence, adequate space is available for laying of pipe & any other utility proposed to be laid in future.

Yours faithfully

(iii)PD-Jamshedpur email dated 05.08.2021

Sir,

With respect to subject matter referred above, vide letter dated 08.06.2021, the subject proposal for access permission for laying of DWSD Water Pipe Line from Kandarbera Chowk to Kalimandir (Pardih) Chowk was forwarded with recommendation for issuance of no objection certificate.

Again, vide email dated 05.08.2021, the duly signed corrected details of Licensee fee & BG has been submitted by PD-Jamshedpur.

In this regard it is to mention that construction of elevated corridor is also proposed between Kali Mandir to Dimna Chowk. Therefore, it is requested to review the above proposal so that during construction of elevated corridor re-shifting of pipeline can be avoided or minimised. Further, PD is also requested to ensure the availability of utility corridor for laying of water pipe line and accordingly inform this office at the earliest for further necessary action.

Sir,

This is in reference and continuation to our letter, we have already recommended for laying of water pipe line from Kandarbera chowk to Kali mandir at the edge of the ROW at right hand side. The tentative alignment of proposed elevated flyover is on left side of existing road. Hence the utility corridor at the edge of ROW at right side is suitable for laying of water pipe line.

Further, we have not recommended for crossing of water pipe line in between km 243+000 to 245+000.

This is for your information and further necessary action please.
