We Office of the Superintending Engineer, Rural Water Supply & Sanitation Division, Sambalpur –768001 hereby agree that:

1. **Office of the Superintending Engineer, Rural Water Supply & Sanitation Division, Sambalpur – 762001** shall be solely responsible / liable for full compensation / indemnification of concerned agency / aggrieved owners for any direct or indirect or consequential damage caused to them / claim or replacements bought for at cost and risk.
2. Pipeline would be laid keeping in mind future expanding lining of the NH. However, we also agree that we shall shift the cables / ducts within 30 days (or as specified by the respective agency / owner) from the date of issue of notice by the concerned owner to shift / relocate the pipeline in case it is required for the purpose of line improvement / widening of the road / route / highway or construction of flyover / bridge and restore the road / land to its original condition at our own cost and risk.
3. We will not violate the instruction of MORTH (Ministry of Road Transport & Highway) New Delhi.
4. It is undertaking that the pipeline will be carried out on the outside of railing / parapets of the bridge / culverts and supported by brackets and fixed outside of the bridge super-structure or as design approved by the Engineer in-charge.
5. Pipeline will be laid under link road by boring system.
6. The agency will notify the concerned Executive Engineer at least 15 days in advance before digging trenches along with the road.
7. Adequate arrangement for cautioning the traffic by way of caution board during daytime and danger light at night will be provided by the agency and we will manage the movement during laying of utility line without hampering the traffic.
8. Each day's the extent of digging trenches should be strictly regulated so that the pipeline is laid and trenches fills up before the close of work that day, the filling should be completed to satisfaction of Engineer in-charge.
9. The agency shall indemnify the road all the damages, if any, due to the digging of trenches for the laying of the pipeline.
10. That if any claim is raised by the concessionaire / contractor then the same must be paid by the applicant.
11. It is undertaking that we will renew the bank guarantees and when asked by MORTH / NH.
12. It is undertaking that we will follow all standard condition of MORTH / NH guidelines.

SITE INSPECTION REPORT

The proposal for permission regarding- " **Execution of Rural Piped Water Supply Project pertaining to 42 GPs of Rairakhol Block (constituency) of Sambalpur district including five years Operation & Maintenance**" under One Package " on EPC contract against LOA Letter No.: **330 Dated: 10-01-2022: Cutting & laying along NH-153B** was inspected at the respective chainage in respect of the documents and layout plan submitted by the RWSS Division, Sambalpur. It was found that the aforesaid work is feasible and in order as per Ministry's Guideline dt.22.11.2016 as well as the amendment circular dt. 17.04.2023. Hence the proposal recommended for approval subject to referring the following special notes:-

1. The water supply pipeline should be laid at the extreme edge of R.O.W specified under the list with a minimum depth of 1.2m below road level, however at restricted area where their shortage of ROW the water supply pipeline can be laid beyond the carriageway with minimum depth as mentioned above.
2. The pits should be properly filling the compaction with sand and water & debris should be removed.
3. No structure of road or C.D. work should be damaged during laying of water supply pipeline.
4. No road crossing is allowed. However, whenever water supply pipeline is required to be laid, it can only be transferred from one side of the road to other through HDD Method.
5. Damages to the OFC, trees, electric poles and other existing utilities should be avoided. In case of such an event, the damages must be repaired to the original condition and any public losses or inconvenience caused shall be the sole responsibility of the Licensee.
