Foreword

Road transport is the dominant mode of transport in India both in terms of share in goods and passenger traffic and in terms of contribution to the national economy. Transportation by roads has remained a preferred mode of transport primarily because of easy accessibility, flexibility of operations, door-to-door service and reliability.

Sustained economic growth, improved road infrastructure and increased disposable income of households have led to the rising demand for road transport. The number of total registered vehicles has recorded annual growth rate of 9.9 percent during the last ten years (2006 to 2016) with 230 million registered vehicles in India as on 31st March, 2016. Personalized modes of transport (cars and two wheelers) constitute about 87 percent of total vehicle population.

The present issue of 'Road Transport Year Book 2015-16' contains wide range of information pertaining to registered motor vehicles over time and across States/UTs and major cities, composition of registered motor vehicles, taxes on road transport and motor vehicles, production and sale of motor vehicles, drivers' and conductors' licenses issued etc.

I hope the publication would be useful to administrators, policy makers and the academia especially those interested in road transport sector. I gratefully acknowledge the cooperation of different agencies involved in motor vehicle and road transport regulation and administration. Contribution of the officers and staff of the Transport Research Wing involved in the work related to this publication is deeply appreciated.

(Yudhvir Singh Malik)

PREFACE

Road transport is the primary mode of transport which plays an important role in the movement of goods and passengers. This segment of transportation system is very significant for economic development and social integration of the country.

Road Transport Year Book is an annual publication of Transport Research Wing of the Ministry of Road Transport & Highways which basically collates the data on registered motor vehicles furnished by the States and UTs. This issue, Road Transport Year Book, 2015-16 contains information for the year 2015-16. Apart from registered motor vehicles, it touches issues relating to road transport such as road network, production and sale and motor vehicles in the country, transportation of freight and passenger, motor vehicle taxation structure, licenses and permits and revenue realized from road transport. Registered motor vehicles in million-plus cities of the country are also included in the report.

I am grateful to the concerned authorities of all States/UTs for furnishing the requisite data/information to TRW. I also congratulate officers and staff of the TRW for putting considerable efforts in bringing out this useful publication for the year 2015-16. I hope this document will be a good reference book for academicians, planners, automobile manufactures and other devout readers.

Constructive suggestions from the users of this publication are welcome.

1.1	Vehicular Population per 1,000 Population and per 100 kms of Road Length : 2001-2016	24
1.2	Production of Motor Vehicles in India: 2007-08 to 2015-16	25
1.3	Sales of Motor Vehicles in India (Including Exports): 2007-08 to 2015-16	26
1.4	Number of Buses Owned by the Public and Private Sectors in India: 1961-2016	27
1.5	Freight and Passenger Movement by Road Transport: 1999-2000 to 2015-16	28
1.6	Number of Valid Drivers' Licences Issued as on 31.3.2016	29
1.7	Number of Drivers' Licences Issued during the Year 2015-16	30
1.8	Number of Conductors' Licences Issued as on 31.3.2016 and during 2015-16	31
2.1	Total Number of Registered Motor Vehicles in India: 1951-2016	32-33
2.2	Number of Newly Registered and Total Registered Motor Vehicles (Category-wise) 2015-16	34
2.3	Number of Vehicles in Use (detailed Category-wise) as per Primary Permit valid as on 31.3.2016 (consolidated for all States/UT's)	35
3.1	Percentage share of Registered Motor Vehicles during 2015-16 (State/UT-wise)	36
3.2	Total Registered Motor Vehicles in India 2005-2016 (State-Wise)	37
3.3	Registered Motor Vehicles (State/UT-wise) per 1,000 population: 2015-16	38-39
3.4	Total Bus Fleet and Buses in Public Sector (SRTUs) (State-wise) (As on 31st March, 2012-2016)	40

Sl. No.	Name of Annexure	Page No.
3.5	Number of Newly Registered and Total Registered Motor Vehicles (Category-wise & State-wise) 2015-16	41-76
3.6	Number of commercial Vehicles in Use (State-wise)) as per primary permit valid as on 31.3 .2015 and 31.3.2016	77
3.7	Number of commercial Vehicles in Use (State-wise and detailed category-wise) as per primary permit valid as on 31 st March 2016	78-87
4.1	Total Registered Motor Vehicles(Category-wise) in Million Plus Cities of India as on 31 st March 2016	88-89
4.2	Detailed Category-wise Total Registered Motor Vehicles in Million Plus Cities of India as on 31.03.2016	90-106
4.3	Total Registered Motor Vehicles in Million Plus Cities of India (As on 31st March,2006- 2016)	107
6.1	Revenue Realised from Road Transport (Centre): 2009-10 to 2015-16	108
6.2	Revenue Realised from Motor Vehicles Taxes, Fees etc. for 2015-16	109
6.3	Revenue Realised from Road Transport (States): 1950-51 to 2015-16	110
6.4	Revenue from Taxes on Motor Vehicle and Passenger & Goods as Percentage of States/UTs Own Tax Revenue	111
6.5	Comparison of fee received in National Permit Account by States / UTs during 2009-10 to 2015-16	112
6.6	State/UT-wise Rates of Motor Vehicle Taxes	113-147
	Appendix – Glossary of Important terms	148-150

Executive Summary

- Road transport is the dominant mode of transport in India, both in terms of traffic share and in terms of contribution to the national economy. Apart from facilitating the movement of goods and passengers, road transport plays a key role in promoting equitable socio-economic development across regions of the country. It also plays vital role in social and economic integration and development of the country. Easy accessibility, flexibility of operations, door-to-door service and reliability have earned road transport a greater significance in both passenger and freight traffic vis-à-vis other modes of transport.
- Road transport is a subject which has its major components in services sector, infrastructure sector and manufacturing sector. Road transport service accounted for 3.3 per cent of the country's gross value addition.
- On the infrastructure i.e. highways development front, the pace at which highways are expanded both in length and quality in recent years has been unprecedented. The length of National Highways has seen an annual growth rate of 7.3 per cent during 2010-11 to 2015-16. Recent initiatives include expansion of the National Highways network to bring road connectivity to border areas, development of coastal roads including road connectivity for minor ports, improvement of efficiency of national corridors, economic corridors and feeder routes under the Bharat Pariyojana. Budgetary and implementation constraints are being tackled by leveraging on private funding through innovative financial instruments, improved procurement procedures, use of e-technology, continuous and systematic monitoring etc.
- Sustained economic development and expanding road network have led to rapid increase in the number of motorized vehicles in India. The total number of registered motor vehicles has increased from about 0.3 million in 1951 to 230 million in 2016; recording a growth rate of about 10.7 per cent, annually. While the number of different types of motor vehicles were growing over the years there has, however, been significant variations in the growth rates and hence substantial change in the composition of registered vehicles during the period.

- Two-wheelers which constituted 8.8 per cent in 1951 have come to dominate the scene on account of relatively faster growth and by 2016 they accounted for close to 3/4th of the total registered vehicles. The combined share of transport vehicles (passenger & goods) in total registered vehicles was only 9.2 per cent in 2015-16.
- The long-run trend in vehicular composition has revealed the preference of road users for personalized means of transport over the public road transport.
- Out of the total 230 million registered motor vehicles up to 31st March, 2016 in India, the State of Maharashtra accounted for the largest share (12.1%) followed by Tamil Nadu (10.5%), Uttar Pradesh (10.4%), Gujarat (8.9%) and Karnataka (7.1%). These five States together accounted for 49 per cent of the total vehicles registered in the country.
- The 51 reporting Million-Plus cities have reported 70.93 million registered motor vehicles up to 31st March, 2016, 31 per cent of total registered vehicles in India. Delhi (88.51 lakh) recorded the highest number of registered motor vehicles, followed by Bengaluru (61.13 lakh), Chennai (49.38 lakh), Ahmedabad (36.56 lakh), Greater Mumbai (28.20 lakh) and Surat (26.66 lakh). These six cities accounted for 41 per cent of the total registered vehicles in respect of the reported million-plus cities.
- International comparison of vehicular penetration, measured by estimated number of vehicle in use per 1000 persons, reveals that developed countries tend to have higher car penetration whereas in developing countries tend to have higher two-wheelers penetration. The estimated figures in respect of India were 19 cars and 102 motorcycles & mopeds per 1000 population in 2013.
- The pre-GST regime of taxation of road transport and motor vehicles characterised by multiplicity and wide inter-state variations is being substantially alleviated by the Goods and Services Tax (GST) which came into operation from July, 2017. The introduction of a unified GST, E-way bills and E-tolling are significant development, apart from fast expanding good quality highways and expressways, towards seamless and hassle-free traffic movement and enhanced road transport efficiency. The road transport sector needs to leverage on these significantly improved infrastructure and enabling regulatory environment.

Section - I

An Overview of Road Transport Sector

The major modes of transport in India are road, railways, airways, shipping and inland waterways. Road transport is the dominant mode both in terms of share in passenger and freight carried and in terms of contribution to the national economy. Between the two main modes of transport, viz., road and railways, road transport carries about 90 per cent of the total passenger traffic and 67 per cent freight traffic. In terms of contribution to the economy, road transport contributes about 3.3 per cent of Gross Value Addition (GVA) against the total transport sector contribution of 5 per cent in the GVA.

1.2 Road transport facilitates movement of goods and passengers, and links producers with consumers. It also plays a key role in promoting equitable socio-economic development across regions of the country by facilitating universal access to public services and opening backward regions to trade and investment. Easy accessibility, flexibility of operations, door-to-door service and reliability have earned road transport a greater significance in both passenger and freight traffic vis-à-vis other modes of transport.

1.3 Road transport encompasses road infrastructure, motor vehicles and road transport services. But the share of road transport in the national accounts pertains only to the output or gross value addition in services component and does not include the infrastructure and manufacturing components of road transport. **Table 1.1** below gives the share of various sub-sectors of the transport services in GVA for the years from 2012-13 to 2015-16.

Table 1.1: Percentage Share of Different Modes of Transport Services in Gross Value Added (GVA) [base year 2011-12]				
Sector/Year	2012-13	2013-14	2014-15	2015-16
Transport Sector	5.02	5.01	4.99	4.98
<i>of which:</i>				
Railways	0.81	0.80	0.81	0.82
Road Transport	3.30	3.30	3.28	3.26
Water Transport	0.08	0.08	0.08	0.08
Air Transport	0.05	0.05	0.05	0.06
Services Incidental to Transport	0.78	0.77	0.77	0.77
Source: Central Statistical Organisation				

1.4 Roads are the primary infrastructure for road transport. The stock of road length in India was reported at 56.03 lakh km as on 31st March, 2016, out of which 62 per cent were surfaced road. Various road development programmes of recent past have yielded significant expansion of quality road network in India. Expansion of the National Highways has been remarkable as it increased from 70,934 km in 2010-11 to 1,01,011 km in 2015-16, recording an annual growth rate of 7.3 per cent.

1.5 Efforts are being made for a balanced development of road network (primary, secondary and tertiary systems). Through recent initiatives, the development of primary road network is being tied up with the railways' dedicated freight corridors, connectivity with ports, airports, logistic hubs, major tourist centres and linkage with neighbouring countries. In the last two/three years, the Ministry of Road Transport & Highways has undertaken detailed review of National Highways network with a view to develop road connectivity to border areas, development of coastal roads including road connectivity for minor ports, development and improvement of efficiency of national corridors, economic corridors and feeder routes under the Bharat Pariyojana. Through several initiatives and increasingly higher budgetary allocations, efforts are on hastening the pace of construction of highways and other supporting roads. These initiatives include leveraging both public and private funding; increased assistance to States PWDs; innovative procurement procedures; use of e-technology; continuous and systematic monitoring etc.

1.6 The number of registered vehicles in the country as on 31st March, 2016 was 230 million. Between 2010 and 2016, the number of registered vehicles has recorded an annual growth rate of 10.3 per cent, outpacing the rate of increase in road length by a huge margin. The number of registered vehicles per 100 km of road length has increased from 3,033 in 2010-11 to 4,105 in 2015-16 (**Annexure 1.1**). Vehicles in use data as against registered vehicles would have greater relevance for various practical purposes such as assessing traffic congestions, freight and passenger volume etc. But obtaining a complete and consistent data from States/UTs has not been easy. This publication has attempted to compile the number of commercial vehicles in use as per valid primary permit, though with limited success, some have indeed provided the data which is incorporated in this report at **Annexure 2.3**. The volume of motor vehicles production and sale in India during 2015-16 were 23.96 million

and 24.11 million respectively. Both production and sale of motor vehicles recorded robust annual growth rates of about 10.4 per cent during 2007-08 and 2015-16, despite year-on-year fluctuations in recent years (**Annexure 1.2 and 1.3**).

1.7 Goods and passenger transport in India is dominated by road transport. The number of registered transport vehicles, both goods and passengers, as on 31st March 2016 was 210.9 lakh (**Annexure 3.3**), constituting 9.2 per cent of total registered vehicles. Trucking industry is in the hands of private operators and is stated to be highly fragmented and unorganised - majority are small operators owning less than five trucks. Passenger transportation has both private operators and public operators called State Road Transport Undertakings. But private operators constitute the dominant player in terms fleet size as well as in inter-city routes covered. The fleet size of SRTUs constitutes a little over 8.1 per cent of registered buses in 2016 (**Annexure 1.4**). The estimated volumes of freight and passenger movement by road transport are given at **Annexure 1.5**.

1.8 Road transport service provides direct employment in the form of drivers and conductors and also generates other direct and indirect employments such as accounts and administrative staff, brokers, booking agents, loading and unloading operations, wayside facilities, etc. The 47 State Road Transport Undertakings which constitute a fragment of the entire road transport service in the country have reported combined staff strength of 7.38 lakh in 2015-16. The number of valid professional driving licence issued by States/UTs (excluding Mizoram, Punjab, Telangana and Delhi which did not furnish the data) as on 31st March, 2016 was 354.36 lakh (**Annexure 1.6**) and the number issued during 2015-16 was 18.6 lakh (**Annexure 1.7**). State/UT-wise figures of the number of conductor's license are given at **Annexure 1.8**.

1.9 Road transport consumes over three-fourths of the total energy employed by transport sector and thereby has significant implications on import of petroleum products and air pollution. Development of fuel efficient vehicles, alternative fuels and enforcement of strict emission norms are imperative for sustainability of road transport sector in the country. Road safety is another major issue that road transport is grappling with. The absolute number of road fatalities has been growing consistently in recent years irrespective of year to year fluctuations observed in the number of accident and persons injured. During calendar year 2016, road accidents claimed 1,50,785 lives and caused injury of 4,94,624 persons. Apart

from the human tragedy, it is estimated that 3 per cent of GDP is lost each year due to road accidents. Development of a clean, safe and sustainable road transport system have now become an integral part of the efforts to improve road transport efficiency.

1.10 The project for creation of National Register and State Register of Motor Vehicles Registration and Driving Licence through VAHAN (for vehicle registration) and SARATHI (for driving licences) has achieved nearly 100% automation for 1100+ RTOs across the country. A number of core RTO centric applications and a large number of online Citizen and Trade centric services have been facilitated through the VAHAN and SARATHI platforms such as – online dealer point registration, online road tax payments, online applications for driving/learner licences; modification requests in existing RC/DL etc. To improve road transport efficiency - ease of transport; barrier free freight movement; enhancing the customer experience - E-tolling (Electronic Toll Collection) through Radio Frequency Identification Technology (RFIT) has been introduced to be extended throughout the country on National Highway for seamless and hassle-free traffic movement. The GST regime has eased movement of goods across borders by subsuming local levies goods movements and thereby removing border check-posts. E-way bills would further facilitate smooth movement of goods vehicles. Under the Logistic Efficiency Enhancement Programme (LEEP), the Ministry had shortlisted 15 locations with the highest freight movement for the development of multimodal logistics parks. The parks are expected to serve four key functions: freight aggregation and distribution, multimodal freight movement, storage and warehousing, and value-added services such as custom clearances.

1.11 Regarding road safety, the Motor Vehicle (Amendment) Bill 2017 presently pending in the Rajya Sabha is a game-changer. The Bill addresses road safety issues by providing for stiffer penalties, permitting electronic enforcement, improving fitness certification and licensing regime, statutory provisions for protection of good Samaritans and recognition of IT enabled enforcement systems. The Bill also paves way for reforms in public transport which in turn will help in improving road safety. The Bill contains provisions for treatment of accident victims during golden hour which will help in saving precious lives. On vehicular safety standards, series of notifications have been issued by the Ministry, such as trucks being prohibited from carrying protruding rods; Anti-locking Brake System (ABS) made mandatory on Heavy Vehicles; Cars to have provision for fitment of at-least one child seat. Car Crash Standards to be made mandatory w.e.f., 1st April, 2018; ABS/CBS for Two Wheelers

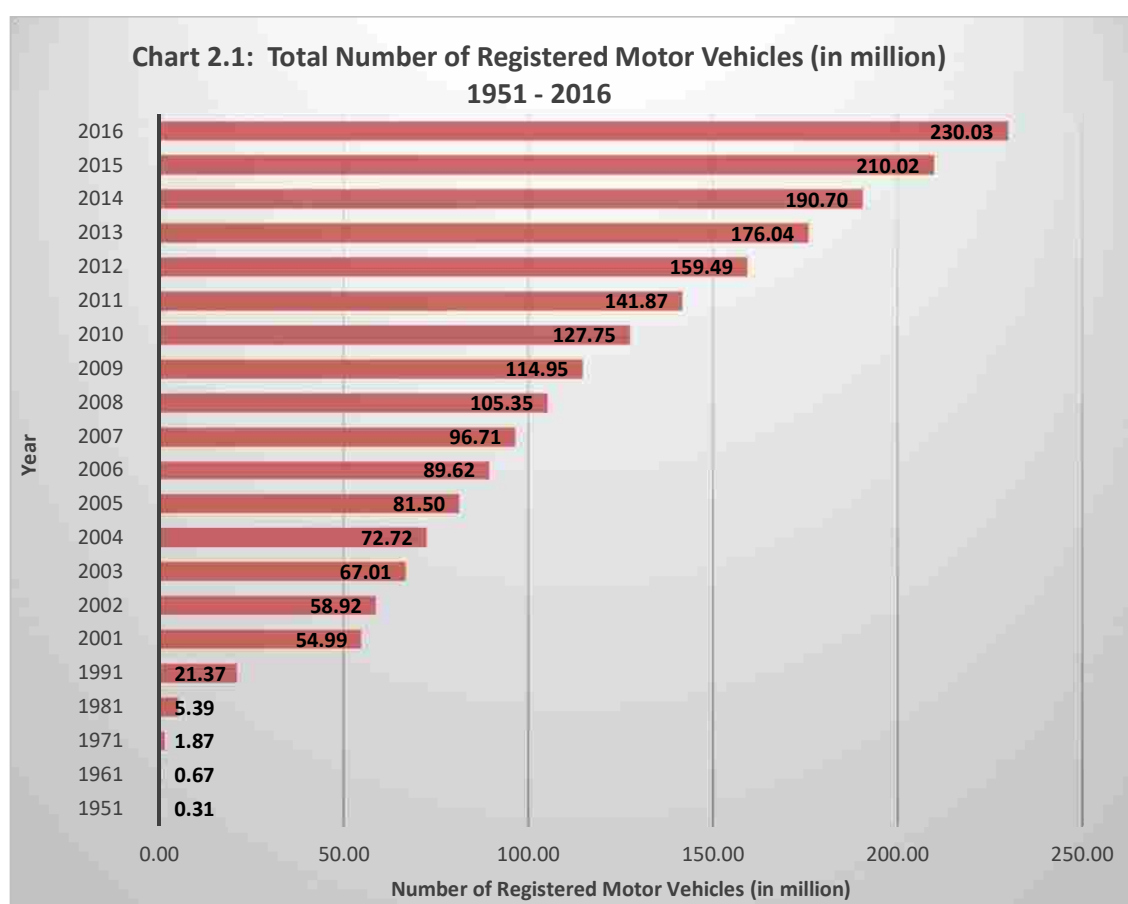

mandated w.e.f. 1st April, 2018; AHO (Automatic Headlight On) made mandatory for Two Wheelers to make them more conspicuous; Bus Body Code for safer and comfortable buses; Truck Body Code for safe cabins to drivers and other road users; Mandatory Fitment of Speed Governors on Transport Vehicles to avoid over speeding.

1.12 The role and share of road transport in both passenger traffic and freight traffic as also its contribution to the economy has been highlighted in the earlier paras of the present Section. In general, freight transportation by road has been characterized by slow movement of goods and delays due to numerous check-posts, multiple documentations for tax and transport authorities, thereby leading to high logistic costs. The sector is also highly fragmented in terms of its operations. There is need for road transport agencies to improve their operational efficiency through degrees of aggregation and horizontal and vertical integration on a case-to-case basis. Increasingly, Roads and Road Transport are not being looked at in isolation but as part of an integrated multi-model system of transport. The road transport sector needs to leverage on the fast expansion of good quality highways and expressways. The introduction of a unified GST and the provisions of the Motor Vehicle Amendment Bill 2017 (when passed) will promote ease of transport and citizen facilitation. The Ministry has taken several steps such as a new centralized, web-enabled application covering all aspects of RTO operations and Citizen/Trade centric services. In order to remove the bottlenecks and ensure seamless movement of traffic and collection of toll as per notified rates, the Ministry has introduced Electronic Toll Collection (ETC) for collecting user fee through Radio Frequency Identification Technology (RFIT). Development and application of other ICTs for vehicle/freight tracking, checking overloading/weigh-in-motion at toll plazas will improve speed and reduce delays.

Section – 2

Registered Motor Vehicles in India

2.1 There has been a continuous increase in the number of registered motor vehicles in India since 1951. The total number of registered motor vehicles increased from about 0.3 million in March, 1951 to 230.03 million up to 31st March, 2016 (**Annexure 2.1**). The total registered vehicles in the country grew at a Compound Annual Growth Rate (CAGR) of 9.9 per cent between 2006 and 2016. A graphic representation of the total number of all registered motor vehicles in India since 1951 to 2016 may be seen on **Chart 2.1**, below.

Source: Offices of State Transport Commissioners/UT Administrations.

2.2 **Composition of Registered Motor Vehicles:** The share of two wheelers in total registered motor vehicles in India stood at 73.5% in 2016 as compared to 8.8% in 1951 (Table 2.1). Concomitantly, the combined share of cars, jeeps and taxis in the total number of registered vehicles was 13.1% in March 2016, marking a steep decline from 52% in 1951.

The share of buses in total registered vehicles declined from 11.1% during the period 31st March 1951 to 0.8% for the period up to 31st March 2016. Omni buses were also included in the fleet of buses from 2001. The number of registered goods vehicles in the country, which had accounted for 26.8% in 1951 decreased to 4.6% of the total vehicles by 2016. The share of 'Other vehicles', which include tractors, trailers, three wheelers (passenger)/Light Motor Vehicles (LMVs) and other miscellaneous vehicles, increased from 1.3% in 1951 to 8.1% during 2015-16.

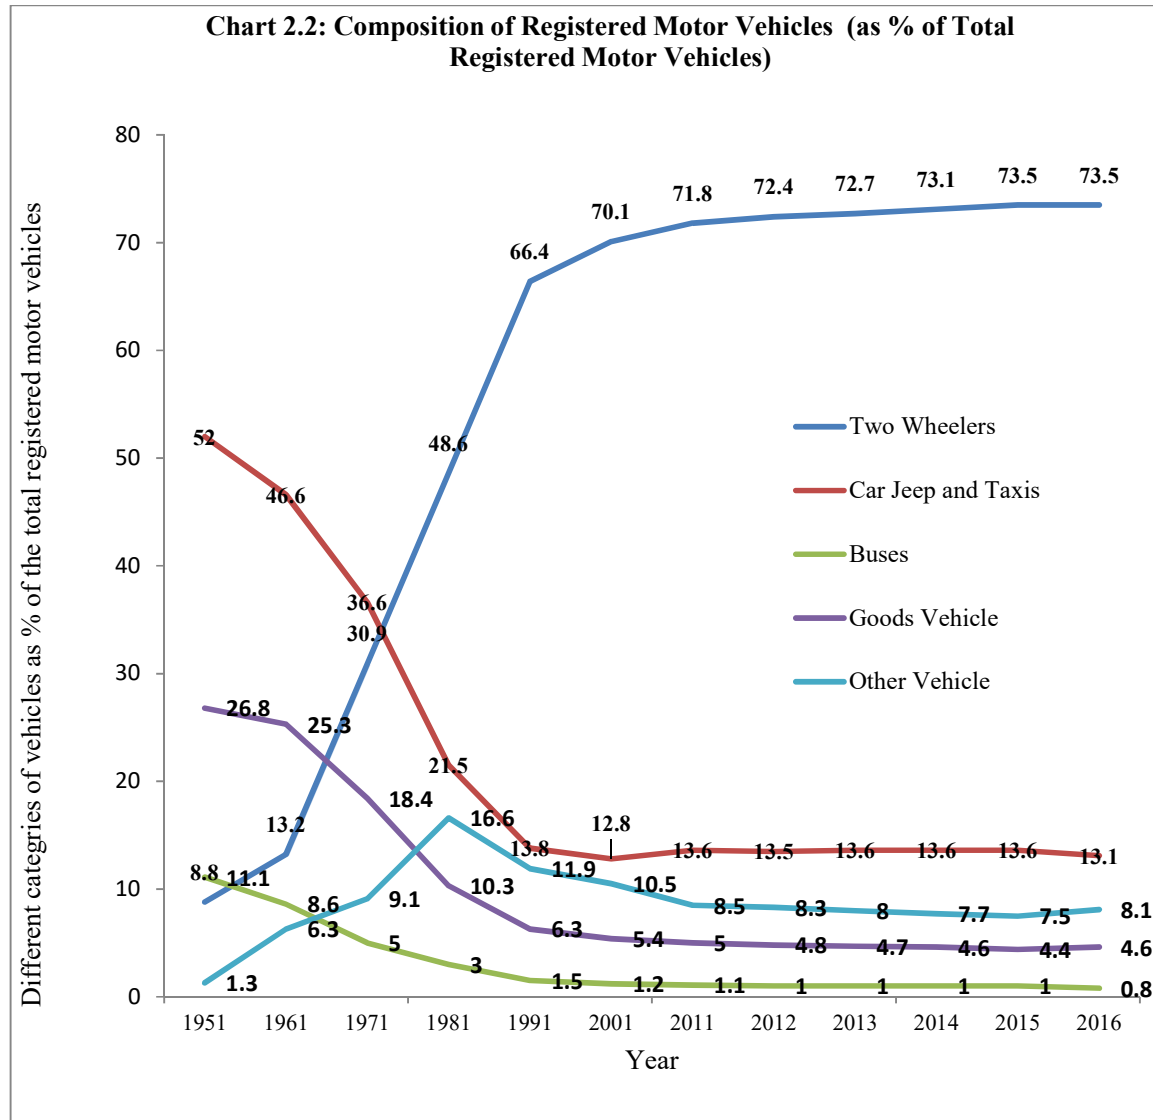

Table 2.1: India - Composition of Vehicle Population						
As on 31st March	Two Wheelers	Cars, Jeeps & Taxis	Buses @	Goods Vehicles	Other Vehicles	Total
	(as % age of total vehicle population)					(Million)
1951	8.8	52.0	11.1	26.8	1.3	0.3
1961	13.2	46.6	8.6	25.3	6.3	0.7
1971	30.9	36.6	5.0	18.4	9.1	1.9
1981	48.6	21.5	3.0	10.3	16.6	5.4
1991	66.4	13.8	1.5	6.3	11.9	21.4
2001	70.1	12.8	1.2	5.4	10.5	55.0
2002	70.6	12.9	1.1	5.0	10.4	58.9
2003	70.9	12.8	1.1	5.2	10.0	67.0
2004	71.4	13.0	1.1	5.2	9.4	72.7
2005	72.1	12.7	1.1	4.9	9.1	81.5
2006	72.2	12.9	1.1	4.9	8.8	89.6
2007	71.5	13.1	1.4	5.3	8.7	96.7
2008	71.5	13.2	1.4	5.3	8.6	105.3
2009	71.7	13.3	1.3	5.3	8.4	115.0
2010	71.7	13.5	1.2	5.0	8.6	127.7
2011	71.8	13.6	1.1	5.0	8.5	141.8
2012	72.4	13.5	1.0	4.8	8.3	159.5
2013	72.7	13.6	1.0	4.7	8.0	176.0
2014	73.1	13.6	1.0	4.6	7.7	190.7
2015	73.5	13.6	1.0	4.4	7.5	210.0
2016	73.5	13.1	0.8	4.6	8.1	230.0

Source: Offices of State Transport Commissioners/UT Administrations.

Note: 'Other vehicles' include tractors, trailers, three wheelers (passenger vehicles)/LMV and other miscellaneous vehicles which are not classified separately.

@ includes Omni buses since 2001

2.3 Graphic representation of the vehicular composition at Chart 2.2 below shows the linear movement of each category of vehicle's share in the total registered vehicle over the period from 1951 to 2016.

2.4 Apart from the sheer dominance of the total vehicular population in India by two-wheelers, this category of vehicle has seen steady growth, though at a lower rate in recent years, whereas the share of buses has declined over the years. This preference of road users for personalised means of transport over public transport could be dictated, apart from convenience and economic considerations, by the failure of public transport system in keeping up with the demand.

2.5 Growth of Vehicles vis-a-vis Roads: The CAGR of the total registered motor vehicles in India were 9.9% during the period 2006 to 2016 respectively (**Table 2.2**). Among the various categories of vehicles, the highest CAGR during the period 2006 to 2016 were recorded by cars, jeeps & taxis (10.1%), followed by two-wheelers (10.1%), goods vehicles (9.0%), other vehicles (8.9%) and buses (5.9%).

Table 2.2: Compound Annual Growth Rates (in %) in Vehicles and Road Length												
Period	Vehicles						Roads					
	Two - Wheelers	Cars, Jeeps & Taxis	Buses	Goods Vehicles	Others*	Total	NHs	SHs & OPWD	Rural	Urban	Project	Total

Note: NHs: National Highways; SHs: State Highways; PWD: Other Public Works Department roads

* Others include tractors, trailers, three-wheelers (passenger vehicles/LMVs) and other miscellaneous vehicles which are not classified separately.

** During the year 2015-16, Other PWD Road category has been discontinued and PWD road, other SHs, are categorized under Districts Roads and Rural roads under PWD. Because of this change, the figures in respect of OPWD, District Road & Rural Roads are not comparable with figures of previous years.

Sources: 1. Offices of State Transport Commissioners/UT Administrations
2. 'Basic Road Statistics of India, 2015-16'.

2.6 Detailed category-wise newly registered vehicles during 2015-16 and total registered vehicles as on 31st March, 2016 are given at **Annexure 2.2**, despite sizable data gap for as many as five States/UTs did not furnish the information. The composition of newly registered vehicles in 2015-16 was largely similar to the composition of all registered vehicles, except for slightly higher share of non-transport vehicles in newly registered vehicles during 2015-16 on account of higher share of two-wheelers. Transport vehicles (both passenger and goods) comprised 7.4 per cent of all vehicles newly registered in 2015-16 against 9.2 per cent

of all registered vehicles as on 31st March 2016. Two-wheelers which constitute 73.5 per cent of total registered vehicles upto 31st March 2016 showed a higher share of 77.2 per cent of vehicles newly registered in 2015-16. The observed long-run trend of growing share of non-transport personal vehicles is still being sustained by the composition of newly registered vehicles in 2015-16.

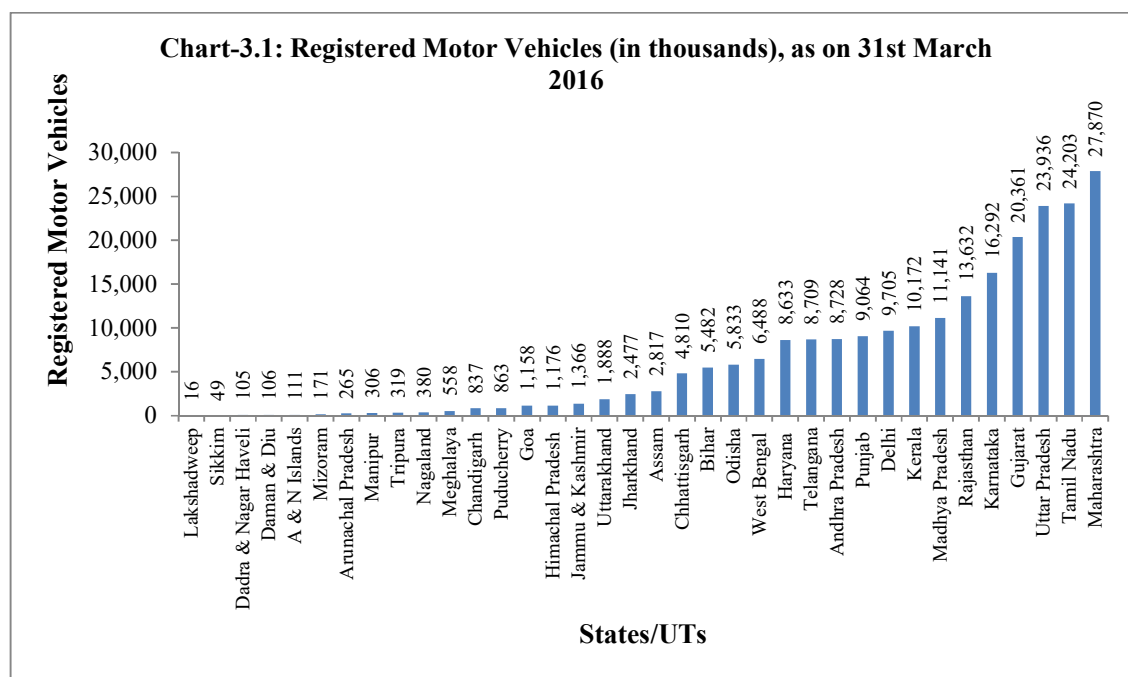

2.7 Data on number of vehicles in use is crucial for understanding issues such as traffic congestions and freight and passenger volumes. This publication attempted to collate the information pertaining to commercial transport vehicles furnished by States/UTs based on valid primary permit (**Annexure 2.3**). Apart from data gaps, a comparison with the State/UT-wise data of registered transport vehicles reveals that in some cases, the number of vehicles in use exceeded the number of registered vehicles. Such cases cannot, but be treated as anomaly as the number of vehicles in use is a subset of registered vehicles.

Section – 3

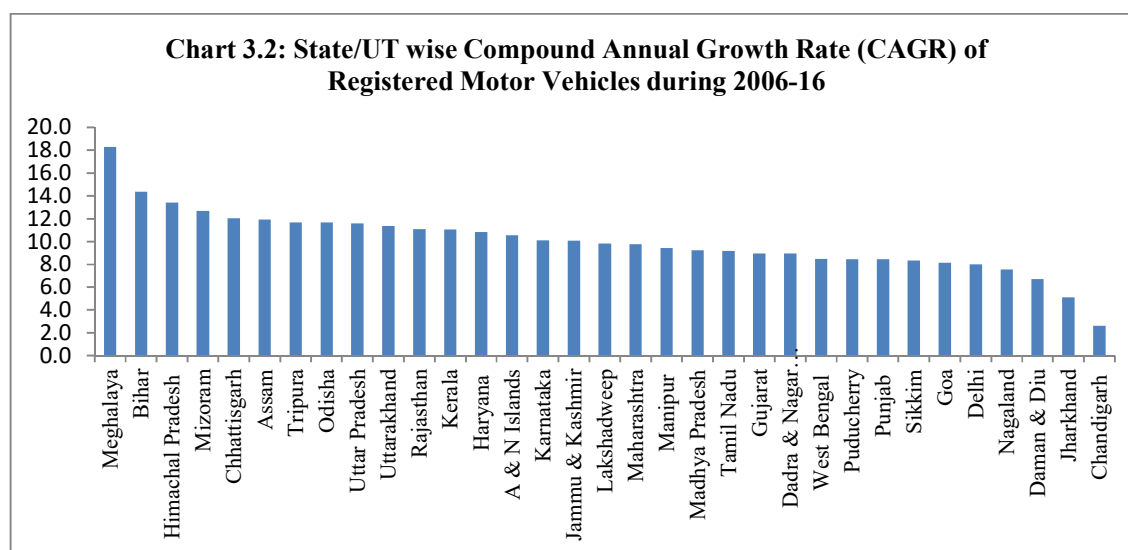

State-wise Distribution of Registered Motor Vehicle Population in India

3.1 The distribution of registered vehicles across the 36 States and UTs has been fairly uneven. Registered vehicles in 5 States of Maharashtra, Tamil Nadu, UP, Gujarat and Karnataka accounted for 49 per cent of the total registered vehicles in India whereas 10 small States/UTs of Nagaland, Tripura, Manipur, Mizoram, Arunachal Pradesh, A&N Islands, Daman & Diu, D&N Haveli, Sikkim and Lakshadweep together accounted for less than 1 per cent.

3.2 Out of total 230 million registered motor vehicles up to 31st March, 2016, the State of Maharashtra accounted for 12.1 per cent, followed by Tamil Nadu (10.5%), Uttar Pradesh (10.4%), Gujarat (8.9%) and Karnataka (7.1%). The UT of Lakshadweep with 0.16 lakh registered vehicles has the smallest share of 0.01% in the total registered motor vehicles in the country. Among the States, Sikkim reported the lowest number of the total registered vehicles (0.49 lakh) with a share of 0.02 % in the total registered motor vehicles in the country (see **Annexure 3.1**). State/UT-wise number of registered motor vehicles up to the period 31st March 2016 is depicted at **Chart-3.1** below.

3.2 State/UT-wise registered motor vehicles from 2006 to 2016 is given at **Annexure 3.2**. The annual growth rate of registered vehicles during 2006-16 among States and UTs reveals that large States such as Bihar, Chattisgarh, Assam and Orissa which accounted for relatively small share in the total registered vehicles in the country have seen high growth rates (CAGRs). Meghalaya has recorded the highest annual growth rate of 18.3% followed by Bihar (14.4%) and Himachal Pradesh (13.4%), the lowest CAGRs were recorded by Chandigarh (2.6%), Jharkhand (5.1%) and Daman and Diu (6.7%). The States/UTs wise CAGR during 2006-2016 are given in **Chart 3.2** below:

Note: Andhra Pradesh, Arunachal Pradesh and Telengana are excluded as the base year (2006) figures of registered vehicles are not available for these states.

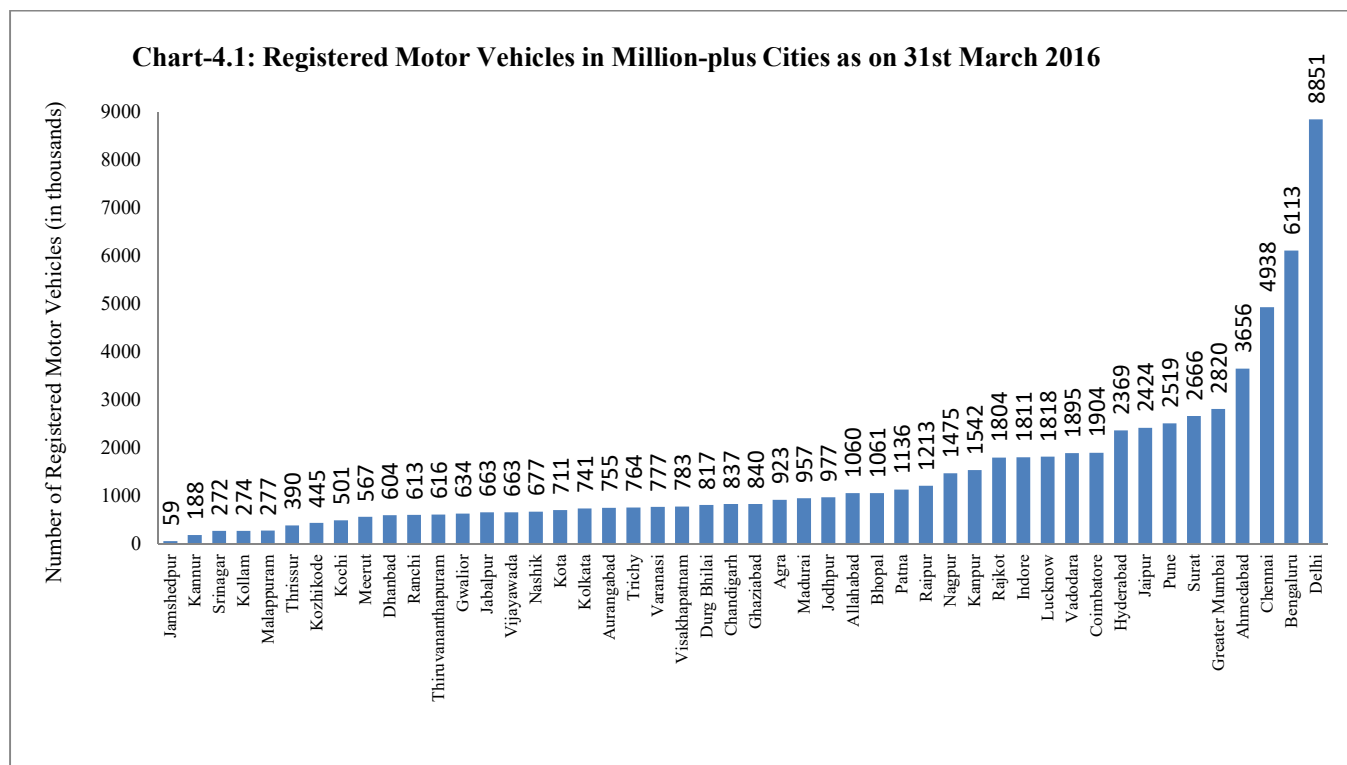

3.3 State-wise broad category-wise number of registered vehicles in 2016 are shown at **Annexure 3.3**. The States of Maharashtra, Gujarat and Tamil Nadu together accounted for 32 per cent of the total registered goods transport vehicles in the country which includes multi-axled/ articulated vehicles, trucks and lorries and light goods vehicles. In passenger vehicles, Punjab, Maharashtra, Gujarat, Tamil Nadu and Kerala accounted for 48 per cent of total registered passenger vehicles (buses, taxis and light passenger vehicles) in the country. State/UT-wise registered bus and public sector (STRUs) bus fleet from 2012 to 2016 may be seen at **Annexure 3.4**.

3.4 State-wise, detailed vehicle category-wise number of vehicles registered during 2015-16 and cumulative number of registered vehicles as on 31st March 2016 are presented in **Annexure 3.5**. Similarly, State-wise and detailed vehicle category-wise commercial vehicles in use in respect of reporting States are given at **Annexure 3.6 and 3.7**.

Section – 4

Registered Motor Vehicles in Million-Plus Cities

4.1 Urban centres are associated with high vehicular density and road traffic congestions. The number of registered vehicles in the 51 reporting Million-Plus Cities are collated and incorporated in the report. The number of registered vehicles in these Million-Plus cities upto 31st March 2016 was 709.29 lakh, 31 per cent of total registered vehicles in the country (**Annexure 4.1**). Delhi (88.51 lakh) recorded the highest number of registered motor vehicles, followed by Bengaluru (61.13 lakh), Chennai (49.38 lakh), Ahmedabad (36.56 lakh), Greater Mumbai (28.20 lakh) and Surat (26.66 lakh). These six cities accounted for 41.3% of the total registered vehicles in respect of the reported Million Plus Cities. Jamshedpur (0.59 lakh) reported the lowest number of registered motor vehicles amongst reporting Million-Plus Cities in India. Chart 4.1 below depicts city-wise vehicular population.

2. Broad category-wise number of registered vehicles, city-wise and the detailed city-wise, category-wise distribution of vehicles in Million Plus Cities of India for 31st March of 2016 are at **Annexures 4.2 and 4.3**, respectively.

4.3 City-wise registered vehicles from 2006 to 2016 may be seen at **Annexure 4.3**. During 2006-2016, the highest CAGR of 14.4 % was recorded by Surat followed by Kanpur (13.8%) and Vadodara (12.5%). The select Million-Plus Cities which recorded more than 10% CAGR during 2006-2016 is given in **Table 4.1** below-

Table 4.1: Million-Plus Cities Recording High Growth Rates of Registered Motor Vehicles During 2006-2016	
Million Plus Cities	2006-2016
Surat	14.4
Kanpur	13.8
Vadodara	12.5
Kochi	11.7
Lucknow	11.5
Pune	11.2
Patna	10.9
Madurai	10.1

Section – 5

International Comparison of Vehicular Penetration

This Section is based on the World Road Statistics, 2016 of International Road Federation which provides various road transport data, including vehicles in use, for over 200 countries of the world. Vehicular penetration is the number of vehicles in use, as against registered vehicles, per 1000 persons.

5.2 In general, motor car penetration is high in developed countries whereas two-wheeler penetration is high in developing countries. Developed countries like Germany and USA have car penetration rates (car/1000 persons) higher by factors of about 7.5 and 4.7 to that of China and by factors of 29.8 and 19.8 to that of India respectively. In India and few other developing countries the penetration level of two-wheelers (two-wheelers/1000 persons) is much higher compared to developed countries. **Table 5.1**, below gives international comparison of vehicular penetration taking select developed and developing countries.

Table-5.1: Vehicular Penetration during 2014 of Selected Developed & Developing Countries				
Country	GNI per capita (US \$) for 2014	Per 1000 person		
		Passenger Cars	Total Motor Vehicles	Motorcycles and Mopeds
Developed				
Australia	64,620	567	718	33
Germany	47,500	548	609	51
Japan	41,900	472	603	92
U.K.	43,350	455*	517*	19*
U.S.A	54,400	357	790	26
Developing				
Brazil	11,790	233	299	112
China	7,400	76*	93*	70*
India	1,560	19*	28*	102*
Korea, Rep	26,970	312	398	-
Malaysia	11,120	382	421	389
Mexico	10,080	209	285	18
South Africa	6,790	122	178	7

*: Pertains to data for the year 2013.

Note: Passenger cars – motor vehicle, other than motor cycle, intended for carriage of passengers and designed to seat no more than 9 persons (including driver); Total motor vehicles – include passenger cars, buses and motor coaches, vans and lorries, but exclude motor cycles and mopeds; Motor cycles and moped – Two or three-wheeled road motor vehicle not exceeding 400kg of unladen weight.

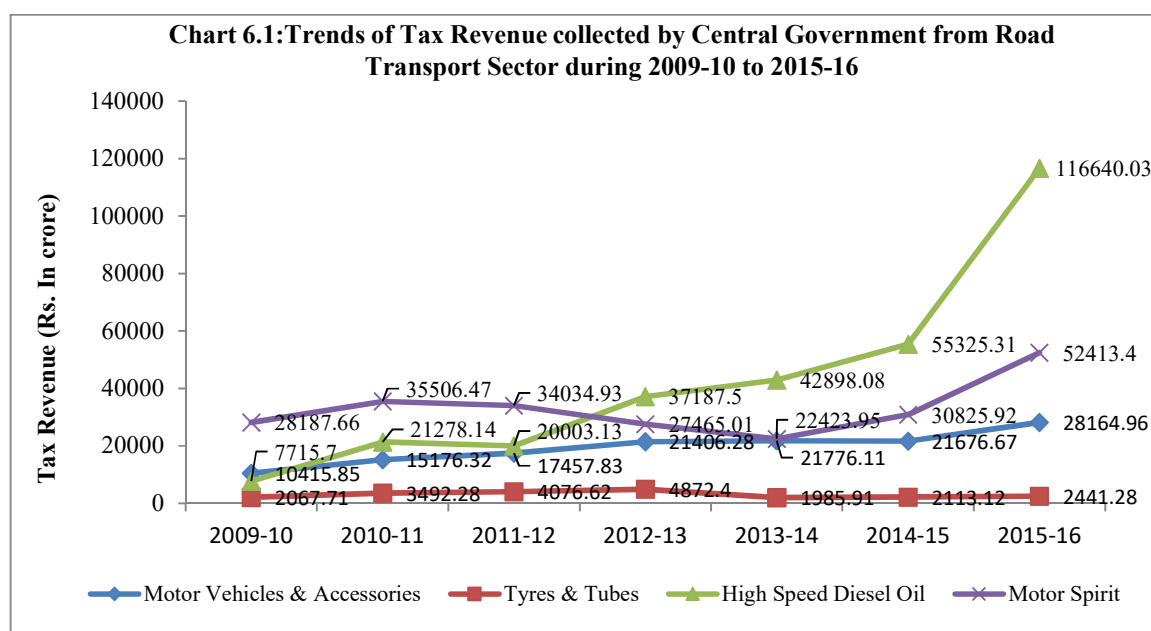

Sources: Data including that of India are from World Road Statistics, 2016, International Road Federation, Geneva.

Section – 6

Road Transport and Motor Vehicle Taxation in India

Under the federal set up in India, the centre, states and local authorities have well defined powers of taxation and management of road transport, as earmarked in the Seventh Schedule of the Constitution. Though the post-GST regime has substantially reduced the number of taxes, under the pre-GST regime both the centre and states levies various duties and taxes on motor vehicles, road transport and related goods and services. The Union Government of India levies import duties on the import of diesel, motor spirit, tyres and tubes and vehicle and spare parts/accessories; and excise duties on diesel, motor spirit, tyres and tubes, and vehicle and spare parts/accessories, produced or manufactured in India. The Union Government also levies service tax on certain road transport services. The State Governments levy different types of taxes on road transport. These taxes include sales tax/VAT on motor spirit and lubricants and specific taxes like motor vehicle taxes, fees, tax on passengers and goods. Motor Vehicle Taxes (MVT) is levied in all States and Union Territories (UTs) except UT of Lakshadweep.

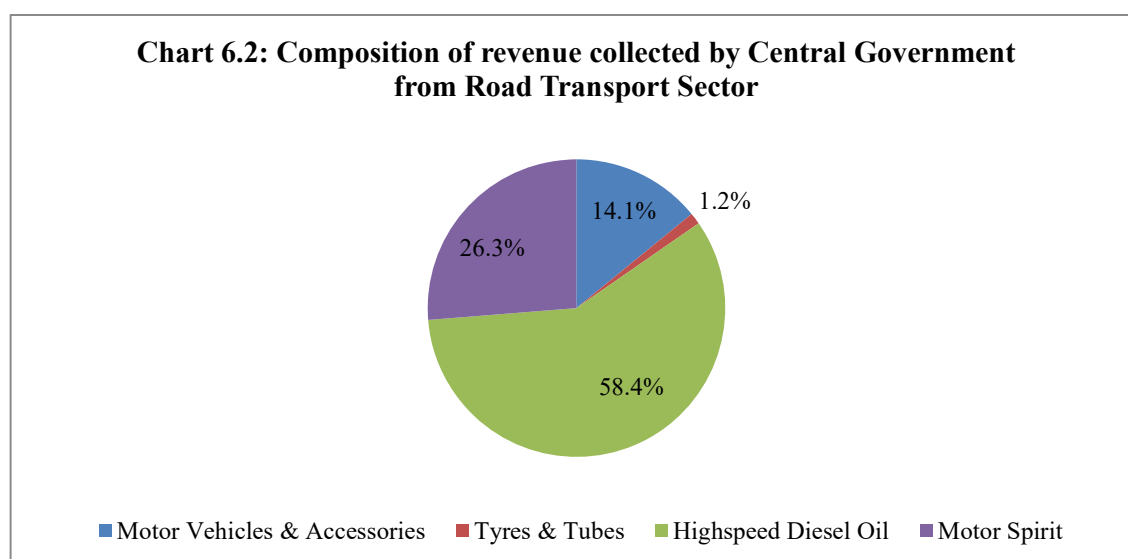

6.2 **Chart-6.1**, below depicts the revenue collected by central government from motor vehicles & accessories.

Source: Directorate of Data Management, Central Excise and Custom.

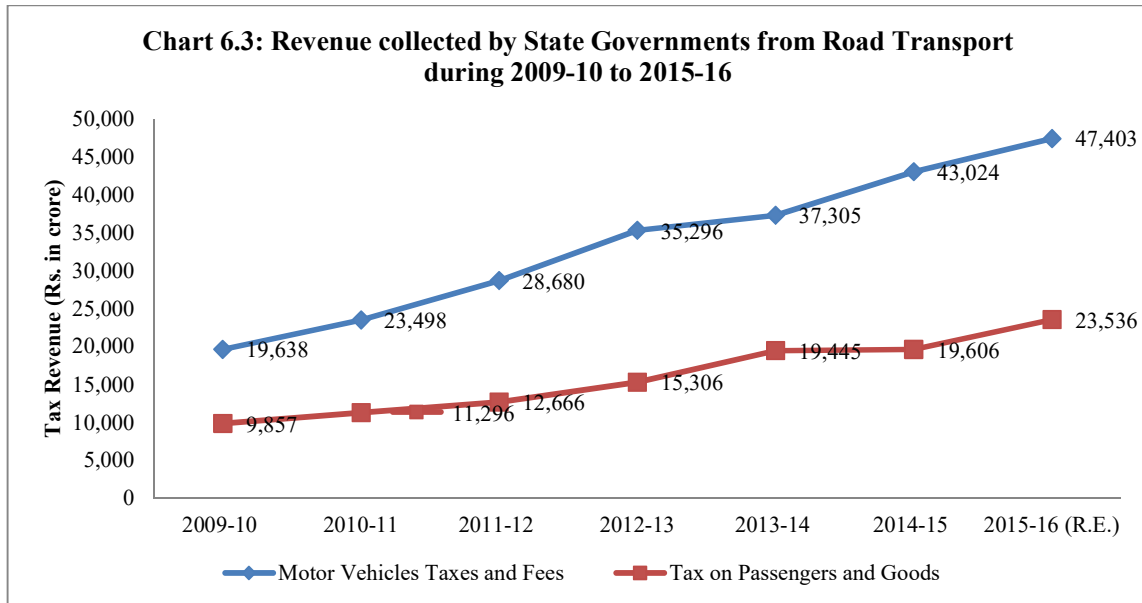

6.3 Revenue realised by the Central Government from motor vehicles & accessories increased from Rs. 10415.9 in 2009-10 to Rs. 28,165.0 crore in 2015-16 and from tyres & tubes increased from Rs. 2067.7 crore in 2009-10 to Rs.2441.3 crore in 2015-16. Revenue collected by central government from high speed diesel oil increased from Rs. 7715.7 crore to Rs. 1,16,640.0 crore in 2015-16 and revenue collected by central government from motor spirit increased from Rs. 28187.7 crore in 2009-10 to Rs. 52413.4 crore in 2015-16. Details can be seen at **Annexure 6.1**.

6.4 During the year 2015-16, the percentage share of revenue collected by central government was highest in high speed diesel oil (58.4%) followed by motor spirit (26.3%), motor vehicles & accessories (14.1%) and tyres & tubes (1.2%). The composition of tax revenue collected by central government from road transport sector as on 31st March, 2016 is shown in chart-6.2.

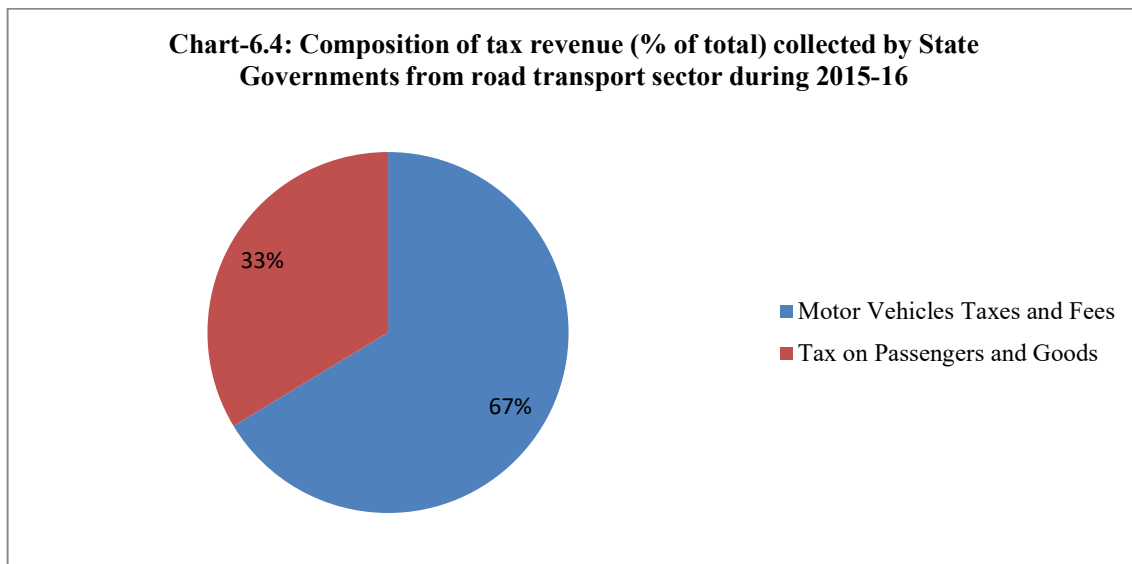

6.5 State Governments levies tax and fees on motor vehicles, sales tax/VAT on motor spirit and lubricants and taxes on passengers and goods. Apart from these, there are entry tax and octroi collected by state governments or local bodies, though the data is not compiled in this report and being abolished post-GST. In an attempt to compile details pertaining to taxes, fees and fines from road transport, the Transport Departments of states and UTs have been asked to furnish the information, but due to several data gaps and inconsistencies the data is not suited for analysis. Therefore, BRI data of taxes on motor vehicle and goods & passenger tax are resorted to. Nonetheless, the data furnished by the states/UTs are given at **Annexure**

6.2. Revenue collected by states and UTs from motor vehicle tax and goods & passenger taxes from 1950-51 to 2015-16 may be seen at **Annexure 6.3** and a more recent trend, i.e., 2009-10 to 2015-16 are shown in **Chart 6.3** below.

Source: State Finances- A Study of Budgets 2012-13 by Reserve Bank of India

6.6 In terms of composition, revenue from tax on motor vehicle constitute about two-thirds of the combined revenue of states and UTs from road transport whereas taxes on passenger and goods constitute the balance one-third in 2015-16. **Chart-6.4**, below depicts the percentage share in the total tax revenue collected by state and UT governments during 2015-16.

6.7 The revenue generated by States and UTs with legislatures from tax on motor vehicles and taxes on goods and passengers constitutes, on an average, 7.8 per cent of their combined own tax revenue in 2015-16 (**Annexure 6.4**). The magnitude of the revenue significance of these taxes differs widely across States; from as low as 3.0 per cent of its own tax revenue in case of Tripura to 46.9 per cent of own tax revenue for Arunachal Pradesh. Among major States, the revenue from motor vehicle and goods & passenger taxes constitute from 4.5 per cent of own tax revenue for Andhra Pradesh to 28.9 per cent for Bihar.

6.8 The new National Permit System was introduced in May 2010 to provide a framework for uninterrupted movement of goods vehicles across the country authorizing the permit holder to operate throughout the country. Under the system, national permit can be granted by the home state on payment of requisite authorisation fee and annual fee. The consolidated fee so collected is distributed among the states and UTs on the basis of a formula based upon the average composite fee received by the states/UTs during previous three years. A statement of the comparison of fee received in National Permit Account by states/UTs is given at **Annexure 6.5**.

6.9 Structure of Motor Vehicle Taxation in India: In the pre-GST regime, states have the exclusive powers to levy passenger and goods tax but their power to tax motor vehicles is subject to the general regulatory provisions of Central laws on the subject. In 2015-16, the tax rate across the States/Union Territories (UTs) on motor vehicles varies from 2% to 21%. State/UT-wise rates of Motor Vehicle Taxes are illustrated in **Annexure 6.6**. The structure of tax on motor vehicles with respect to two-wheelers, cars, passenger vehicles and goods vehicles are highlighted below:

6.10 Most of the States have switched over to one/life time tax (LTT) in respect of two-wheelers, except for a few like Odisha, Sikkim, Andaman & Nicobar, Dadra & Nagar Haveli and Daman & Diu in respect of two-wheelers. In some States, tax slabs for LTT for two-wheelers are based on engine capacity (Himachal, Manipur, Tripura, West Bengal and Puducherry); in some states it is the unladen weight (Assam, Meghalaya and Odisha) and in some states (Arunachal Pradesh and Jammu & Kashmir) it is on lump sum basis. Other States/UTs follow life time tax based on purely the value/cost of the vehicle (Andhra Pradesh, Bihar, Chhattisgarh, Goa, Gujarat, Haryana, Jharkhand, Karnataka, Kerala, Madhya

Pradesh, Maharashtra, Nagaland, Punjab, Rajasthan, Tamil Nadu, Telengana, Tripura, Uttarakhand, Uttar Pradesh, Chandigarh and Delhi).

6.11 In the case of cars, some of the States/UTs which follow engine capacities are Sikkim, West Bengal while Puducherry follow unladen weight as the basis. In Himachal Pradesh the basis of MVT is engine capacity in conjunction with the percentage of cost of vehicle. States like Jharkhand follow the basis of seating capacity. However, most of the States/UTs now follow one/life time tax based on the value/cost of the vehicle (Andhra Pradesh, Assam, Bihar, Chhattisgarh, Goa, Gujarat, Haryana, Karnataka, Kerala, Madhya Pradesh, Maharashtra, Manipur, Meghalaya, Nagaland, Odisha, Punjab, Rajasthan, Telengana, Tamil Nadu, Tripura, Uttarakhand, Uttar Pradesh, Chandigarh, Dadra & Nagar Haveli, Daman & Diu and Delhi). The taxes are annually in Mizoram and Andaman & Nicobar Islands. In Arunachal Pradesh and Jammu & Kashmir, it is on lump sum basis.

6.12 In the case of passenger transport vehicles like stage or contract carriages, the seating capacity forms the basis for levying tax. Motor vehicle taxation of passenger buses is mainly on the basis of an upper seating capacity limit (per seat per quarter or annum) and treated differently from motor cars and jeeps. In many States differentiation in tax treatment of passenger buses is also accorded on the basis of type of service (Ordinary/Luxury/Express etc.). Some States, for example, Andhra Pradesh, Chhattisgarh, Madhya Pradesh, Odisha, Telangana, Uttarakhand also include the distance that the vehicle is permitted to ply as an additional element for determining the quantum of tax. In some States routes are divided into different categories in terms of region with a different rate of tax for each, e.g. in Andhra Pradesh (based on mofussil versus town), Maharashtra (based on city, rural areas and AC) and Uttar Pradesh (based on age of buses). Another distinction particular to the taxation of commercial passenger vehicles is that between stage carriages and contract carriages. Arunachal Pradesh is the only states to have one time tax. In Jammu & Kashmir, it is on quarterly basis while Andaman and Nicobar it is on per annum basis.

6.13 Goods vehicles are almost always taxed on the basis of the registered laden weight (RLW) or gross vehicle weight (GVW) or unladen weight (ULW). For goods vehicles, in most of the States, the basis for taxation is registered laden weight (RLW)/gross vehicle weight (GVW) on quarterly or yearly basis. As far as tax on goods vehicle is concerned, the de facto tax rate mostly is a specific rate calculated on the basis of ULW, GVW/RLW or

payload. Arunachal Pradesh, Jammu & Kashmir and Andaman and Nicobar Islands does not consider the Laden Weight of goods vehicle and they are based on one time tax, quarterly and annually respectively.

6.15 The pre-GST regime of taxation on road transport and motor vehicles characterised by multiplicity and wide inter-state variations is being substantially alleviated by the Goods and Services Tax (GST) which came into operation from July, 2017. Initial reports have suggested that GST has resulted in substantial reduction in transportation cost.

Annexure 1.1

Vehicular Population per 1,000 Population and per 100 kms of Road Length : 2001-2016

Year	Total Number of Registered Motor Vehicles (in thousands)	Length of National Highways (in km)	Length of all Roads (in km)	Total Registered Motor Vehicle per 100Km of National Highways	Total Registered Motor Vehicle per 100Km of Road Length

Annexure 2.2

Number of Newly Registered and Total Registered Motor Vehicles (Category-wise) 2015-16

All States & UTs

(In numbers)

Type of Vehicles	Newly registered	Total registered as on 31st March
	2015-16	2016
1	2	3
TRANSPORT		
I. Multiaxled / Articulated Vehicles	62,086	15,97,938
II. Trucks & Lorries	1,97,237	39,00,933
III. Light Motor Vehicles (Goods)		
a) Four Wheelers	2,30,559	27,57,639
b) Three Wheelers	95,456	18,17,717
Total III	3,55,881	50,17,285
IV. Buses		
a) Stage carriages	12,337	3,41,841
b) Contract carriages	17,113	3,12,301
c) Private service vehicles	12,132	1,63,210
d) Other buses	23,098	2,85,118
Total IV	78,549	13,84,740
V. Taxis		
a) Motor cabs	92,651	10,34,957
b) Maxi cabs	80,438	6,40,831
c) Other taxis	21,386	1,82,531
Total V	2,25,481	23,41,375
VI. Light Motor Vehicles (Passengers)		
a) Three seaters	2,04,469	24,29,135
b) Four to six seaters	98,911	13,54,689
Total VI	3,84,338	63,92,010
VII. Motor cycles on hire	2,809	26,744
Total Transport (I to VII)	13,32,369	2,10,90,119
NON TRANSPORT		
I. Two wheelers		
a) Scooters	42,33,735	5,04,82,957
b) Mopeds	5,89,345	1,13,94,919
c) Motor cycles	74,85,168	7,95,12,467
Total I	1,39,23,928	16,89,75,300
II. Cars	20,09,020	2,56,12,559
III. Jeeps	1,29,221	22,87,753
IV. Omni buses	18,313	3,71,927
V. Tractors	4,29,853	70,86,239
VI. Trailers	1,05,492	18,21,775
VII. Other vehicles not covered	87,731	27,68,121
Total Non-Transport (I to VII)	1,67,03,556	20,89,23,674
Grand Total (Transport + Non-Transport)	1,80,36,437	23,00,30,598

Note: Vertical summation may not add up to total as some states & UTs did not furnish break up
