Please note that the details of your remuneration are to be kept completely confidential and should not be divulged to any person whosoever.

2. Your duties will consist principally as **Material Engineer.** In addition you may also be called upon to undertake other duties, as and when required. During your term of engagement you will work under instructions of our Team Leader/ Other Key Staff.

3. Regular working hours will be worked out by the Team Leader and in case required, you will need to make yourself available to work on Sundays /Holidays depending on the requirements of the Company and/or your assignment.

4. You will be on probation for **three months**. Unless confirmed in writing, you will continue to be on probation. During this period your services could be terminated without notice or assigning any reason. After confirmation, your employment will be subject to one month's notice of termination or one month's salary in lieu thereof.

5. You will be entitled to 20 days earned leave, 5 days casual leave and 5 days sick leave (supported by a medical certificate) on a financial year basis as per leave rules of the company. Your leave entitlement for current year will be calculated on pro-rata basis from your date of joining. **No leave can, however, be granted to you till completion of your probation.**

6. You should be regular in your attendance and if you remain absent from duty continuously 8 days without prior sanction or overstay the sanctioned leave (beyond 8 days) without first getting it extended, your services shall automatically come to an end and a presumption will be drawn that you have abandoned the employment of your own accord and your name will be struck off from the rolls of the Company without any notice to you. However in such a situation, you shall be liable to deposit one month salary as per Para 4 above.
