

No. RM-29 (1) 74-Pt.

Dated the 16th/20th April 1974

To

The Secretaries of All State Govts. & Union
Territories (dealing with Roads)

Subject: Release/requirement of cement for National Highways and other centrally sponsored road works

I am directed to inform you that on the basis of the bulk allocation received from Cement Controller a quantity of _____ tonnes of cement has been earmarked for your state/U.T. for the quarter II/74, for construction of Bridge and culvert on National Highways and other centrally sponsored Road works.

Consignee particulars, such as :

- (i) Name and Address of Indentor/Purchaser
- (ii) Name and Address of consignees
- (iii) Quantity to be allotted in favour of each of the consignees and
- (iv) The corresponding rail heads

for the quantity of cement earmarked for your State/U.T. may please be furnished early, direct to the concerned Regional Cement Officer, under intimation to this office.

In view of continued short production of cement in the country vis-a-vis the demands, it is necessary to assess your minimum realistic requirement of cement, so that urgent/important works do not suffer for want of the same. Under the circumstances I am directed to request you that your minimum realistic requirement of cement for the Quarter III/74 and for the future quarters, for the National Highways and Other Centrally sponsored Road works may please be furnished in the enclosed proforma. Information regarding each schemes/project such as N.H. SR, etc. should be indicated separately. It may be essential that particulars regarding requirement of cement for each of the major bridges should be indicated individually, whereas for minor bridges and culverts consolidated requirement for each NH etc. would be adequate. Necessary information for the Central works in your State/Union Territories should be sent to Ministry in one lot only for each quarter.

Your requirement of cement, for the Quarter III/74, may please be furnished in the prescribed proforma so as to reach the Ministry, before 10th May, 1974 so that the matter may be taken up with the Chief Cement Officer for necessary allocation. It may be appreciated that in case these details are not made available to the Ministry and in due time, it would not be possible for the Ministry to recommend your requirement to the Chief Cement Officer and hence to obtain necessary allocation for your State/Union Territory.

REQUIREMENT OF CEMENT FOR N.H. AND OTHER CENTRALLY SPONSORED ROAD/BRIDGE WORKS FOR THE QUARTER

for the State/U.T.

S. No.	Name & Location of Sanctioned works for major bridges & number (N.H. wise) for minor bridges & culverts.	N.H. No.	Total Qty. of cement reqd. for the entire work (M.T.)
