

No. RW/NH-34020/1/86-DO II

*Dated the 14th November 1990*

To

Chief Engineers of State Public Works Departments and Union Territories dealing with National Highways and other centrally Financed Roads; Director General (Works) CPWD; Director General Border Roads

Subject: Specifications for new concrete Bridges to be constructed in marine environments and susceptible to corrosion.

As per Ministry's letter No. RW/NH/33044/2/88-D.O.II dated 17-4-89 "Guidelines on Supplemental Measures for Design, Detailing and Durability of Important Bridge Structures" as given in IRC Special Publication No. 33 are to be adopted for all important bridge works on National Highways and under other centrally financed schemes. In view of this the earlier Circular letter No. RW/34020/1/86/NH(Std) dated 12-10-87 on the above mentioned subject is hereby withdrawn.
